PROFILE SUMMARY

Senior Mobile Application Developer with 4+ years of experience in Flutter, native Android (Kotlin/Java), and native iOS (Swift/SwiftUI). Directed overall development of four production mobile applications for emergency response and highway services, published across Android and iOS. Experienced in mobile architecture, REST API integration, real-time location tracking, maps, push notifications, security, and backend development with Node.js.

SKILLS

Mobile Development: Flutter, Dart, GetX (MVC), Kotlin, Java, Swift, SwiftUI, Android SDK, iOS SDK

Backend & Databases: Node.js, REST APIs, PostgreSQL, SQLite, Firebase

Maps & Integrations: Google Maps SDK, Mappls SDK, FCM, APNs, background location tracking

Security & Tools: AES/RSA encryption, Git, GitLab, Android Studio, Xcode, VS Code

Distribution: Google Play Store, Apple App Store

PROFESSIONAL EXPERIENCE

Centre for Development of Advanced Computing (C-DAC) | Thiruvananthapuram, Kerala

Project Engineer | Jun 2023 – Present Project Associate | Oct 2022 – Jun 2023

- Directed development activities for four production mobile applications: 112 India, NG Supervisor, Portable Field Terminal (PFT), and NHAI Rajmargyatra.
- Engineered mobile features using Flutter/Dart, Kotlin/Java, and Swift/SwiftUI while coordinating delivery across development teams.
- Implemented SOS workflows, background location tracking, map-based operations, notification handling, and API integrations for emergency response applications.
- Built mobile dashboards and reporting features using REST APIs, interactive charts, district-level summaries, and event analytics.
- Delivered native Android and iOS workflows for FASTag Annual Pass, related Local Pass functionality, FASTag porting, route planning, and complaint/feedback services.
- Published and maintained four applications across Google Play Store and Apple App Store, supporting seven Android/iOS app-platform releases.

Kerala State Electronics Development Corporation (Keltron) | Graduate Apprentice

May 2022 – Oct 2022

- Contributed to application development, maintenance, and manual testing, including HTML- and JavaScript-based functionality.

AWARDS & RECOGNITION

- Best Performance Award (2026) – C-DAC, Thiruvananthapuram.
- Appreciation from Indian Highways Management Company Limited (IHMCL) for contributions to the successful FASTag Annual Pass initiative.

SELECTED PROJECTS

112 India – Citizen Mobile Application | Flutter | Android & iOS

- Delivered an emergency-assistance application on both Android and iOS, supporting citizen access to SOS services.
- Implemented SOS alerts, background location tracking, SMS fallback, push notifications, and emergency-service API integration.

NG Supervisor – Monitoring & Dashboard Application | Flutter | Android & iOS

- Developed and released the supervisory mobile application for monitoring emergency response operations.
- Created API-driven dashboards for daily and weekly reporting, district-level metrics, event analysis, and interactive charts.

NHAI Rajmargyatra – Highway Services Application | Native Kotlin/Java & Swift/SwiftUI | Android & iOS

- Delivered features for native Android and native iOS applications supporting highway users and FASTag services.
- Developed workflows spanning FASTag Annual Pass, Local Pass, porting and eligibility verification, toll plaza information, and route planning.
- Integrated mapping, REST APIs, payment-related user journeys, complaint management, and feedback functionality.

NG-ERSS Portable Field Terminal (PFT / MDT) | Flutter, Dart, Getx (MVC) | Android

- Developed and published an officer-facing Android application supporting emergency dispatch and field operations.
- Engineered event lifecycle handling, real-time and background location tracking, map-based workflows, notifications, and app reliability features.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science | 2021

Sivaji College of Engineering and Technology | Anna University
